Considering Competencies

Trajectories and Trends in Competency-Based Education

Sarah R. Marino
Executive Director
MAERB
Competencies are Valuable

What kind of skills can you bring to Super Any-job Ltd?

I...um write a mean essay...wicked at exams...um, things like that...
Overview

• Trends in competency-based education
• Mini-case study: medical assisting and competency-based education
• Conclusion with questions
Competencies are Community-Based

- MAERB Members & Staff: Judy Jondahl
- ASPA: CoAs and accrediting agencies
- CAAHEP: Kathy Megivern
- Professional Associations: AAMA—Donald Balasa and Anna Johnson
- Practitioners
- Educators
- Healthcare “public”
Competency-Based Education

• Demonstrate and apply acquired knowledge
• Emphasize what is important
• Establish clear expectations
• Measure Consistently
• Delineate scope of practice
• Ensure students are job-ready and job-matched
• Focus on optimal performance
Competency-Based Education ≠ Direct Assessment/PLA Programs

- Institutions: Western Governors University (WGU); Capella University’s FlexPath; Southern New Hampshire University
- USDE: Setting up experimental sites for at least 40 colleges to move forward with the “new breed” of competency-based education programs
I am an...
Admin-filing,
Appointments-scheduling,
Examinations-preparing,
Procedures-explaining,
Patients-greeting,
Physicians-appeasing,
Blood-drawing,
Hand-holding,
Family-consoling

MAERB Core Curriculum

Appendix B

Core Curriculum for Medical Assistants
Medical Assisting Education Review Board (MAERB)
2015 Curriculum Requirements

Individuals graduating from Medical Assisting programs accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) must demonstrate knowledge of the subject matters required for competence in the profession. They must incorporate the cognitive (C) knowledge in performance of the psychomotor (P) and affective (A) competencies required in the following academic subjects.

FOUNDATIONS FOR CLINICAL PRACTICE
CONTENT AREA I-IV

<table>
<thead>
<tr>
<th>CONTENT AREA I: Anatomy &amp; Physiology</th>
<th>Psychomotor (Skills)</th>
<th>Affective (Behavior)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cognitive (Knowledge)</td>
<td>Psychomotor (Skills)</td>
<td>Affective (Behavior)</td>
</tr>
<tr>
<td>I.C Anatomy &amp; Physiology</td>
<td>I.P Anatomy &amp; Physiology</td>
<td>I.A Anatomy &amp; Physiology</td>
</tr>
<tr>
<td>1. Describe structural organization of the human body</td>
<td>1. Measure and record:</td>
<td>1. Incorporate critical thinking skills when performing patient assessment</td>
</tr>
<tr>
<td>2. Identify body systems</td>
<td>a. blood pressure</td>
<td>2. Incorporate critical thinking skills when performing patient care</td>
</tr>
<tr>
<td>3. Describe:</td>
<td>b. temperature</td>
<td>3. Show awareness of a patient’s concerns related to the procedure being performed</td>
</tr>
<tr>
<td>a. body planes</td>
<td>c. pulse</td>
<td></td>
</tr>
<tr>
<td>b. directional terms</td>
<td>d. respirations</td>
<td></td>
</tr>
<tr>
<td>c. quadrants</td>
<td>e. height</td>
<td></td>
</tr>
<tr>
<td>d. body cavities</td>
<td>f. weight</td>
<td></td>
</tr>
<tr>
<td>4. List major organs in each body system</td>
<td>g. length (infant)</td>
<td></td>
</tr>
<tr>
<td>5. Identify the anatomical location of major organs in each body system</td>
<td>h. head circumference (infant)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>i. pulse oximetry</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. Perform:</td>
<td></td>

<tr>
<td></td>
<td>a. electrocardiography</td>
<td></td>
</tr>
</tbody>
</table>
MAERB Core Curriculum

• Cognitive Objectives
  • Describe basic principles of first aid as they pertain to the ambulatory healthcare setting.

• Psychomotor Competencies
  • Perform first aid procedures for . . .

• Affective Competencies
  • Show awareness of a patient’s concerns related to the procedure being performed.
Outcomes/Accountability

2008 CAAHEP Standards and Guidelines

III.C.: “competency-based format”

*Competency-based format has three components:* (1) *the specific task to be mastered*; (2) *the conditions under which the student is expected to perform the task*; and (3) *the standard of performance for the task.*
Assessment and Measurability
Job-Ready & Job-Matching

• 1980’s & 1990s: DACUM (Developing a Curriculum) Analysis
• 1997 & 2003: Role Delineation Study
• 2008 & 2013: Occupational Analysis of the CMA (AAMA)
Competencies are Priceless
Questions/Work for the Future

• How to best connect the cognitive framework and the skill and behavioral competencies?

• How to best balance the competing needs within the profession across the country in the development of competencies?

• How to get more involvement from different stakeholders in the development of competencies?

• What types of tools can be/need to be developed to assess outcomes?
